

Modern Mobile Madness

Are your mobile numbers up to scratch? asks Hayley Aronson

Because of a "two per cent" (1) mobile phone price hike this year we're seeing a significant shift in how consumers use their phones. We usually look at one of two ways to estimate the cell phone market: how many are using it, or how many are using it for. We thought by looking at the latter, we could see the price that it is putting on... (Source: Verizon)

How do you know your phone should be replaced? (Lobby: 1) (Source: Verizon)
